

What our Clients are Saying

"Ruff Construction's customer service is huge! I can count on making just one phone call. They'll really take that workload off your plate and that's incorporated into their full service. Time is crucial in this industry and Ruff gets it done"

Ryan Wood-Philips Real Estate Services

"Ruff Construction offers a superior level of service for those individuals who value expertise and understand the importance of a truly professional construction company"

Brian Judd, CEO of Sound Property

"First let me say that the place looks fantastic. Ruff did an amazing job! Thanks to Mike, Dom, Jake and the others who made this happen on time and under budget!"

Steve Henry, Board President Redwood Condominiums

RUFF CONSTRUCTION

Ruff Construction since 1987 has been consistently going beyond the expectations of property managers, construction consultants, Board of Directors and homeowners. From the pre-construction planning and scheduling with our exceptional administrative staff, through the entire project management with our experienced superintendents to the speedy expedition of any punch list items at completion, Ruff gets the job completed on schedule, within budget and done right the first time. Your project, no matter how simple or complex, will be delivered on time with professionalism and attentive friendly service that makes Ruff a great choice for your next project.

At Ruff Construction, we subcontract out very little of our work, which is very rare in this industry. We have crews that specialize in deck waterproofing, framing, siding, sheathing, building and window wrap and installation. We believe that high quality craftsmanship is a vital element in preserving and increasing your property's value. We also understand, appreciate and take pride in providing excellent customer service and getting the project done right the first time.
